In our country animals are counted but not OBC! A Revelation of the betrayal.

Subject

Caste based census was started by British in 1872. From that year onwards till 1931 census was done based on caste. But, Brahmin that is the ruling caste did not allow caste based census to happen after independence of India.

This was a betrayal with the OBC but even to date OBC have no such information of the betrayal. Therefore the above subject has been kept for discussion to expose the mastermind behind this conspiracy.

Lunch Break : 1.00 PM To 2.00 PM

Awakening Session No.1 : 2.00 PM To 4.30 PM

Refusal to implement the recommendations of the Sacchar Commission after 2009 General Elections is nothing but betrayal of the Musalmans by the ruling castes.

Subject

In the 2009 General Elections the Congress had given an assurance that it would implement the recommendations of Sacchar Committee. The Congress formed the Government at the Center after the General Elections. The Musalmans supported the Congress in the Lok Sabha Elections but the Congress after coming to power refused to implement the recommendations of the Sacchar Commission. Congress has purely betrayed the Musalmans. It is nothing but betrayal, pure and simple. Do the Musalmans know about this betrayal? We do not think so.

To awaken and alert the Musalman's is the prime objective behind keeping the above subject for discussion.

Why was India partitioned? An Analysis.

A few months back, Jaswant Singh, one of the topmost leader of the BJP, wrote a book on the reasons behind the Partition of India. BJP expelled Jaswant Singh, as the party did not want to discuss on this issue. Jaswant Singh's expulsion from the BJP stopped the discussions on the reasons for the Partition of India. "Why Jaswant Singh was expelled from the BJP?" became the topic for discussion after his expulsion. It is a mystery why the ruling castes namely the Brahmins do not want any discussion on the partition of India. Gandhi was assassinated immediately after the Partition of India. This too was done to stop the discussions on the Partition of India. After Gandhi's assassination the public discussions focused mainly on Gandhi's assassination. Thus the discussions relating to the partition of India were effectively stopped even during that time by the ruling castes. Why India was partitioned is still a mystery and the ruling castes want no discussion on this issue. It is necessary to bring out the truth behind the partition of India. The above subject kept for discussion to expose the truth.
